*Written Submissions:*

Anna Yip and Ken Aeng, 7880 Broadmoor Boulevard (Schedule 3)

*Submissions from the floor:*

Mr. Gordon Hercus, of 7420 Belair Drive, expressed concern about the proposal to provide vehicle access to the new homes from a rear lane; and questioned whether this lane requirement would result in the dwellings encroaching into the front setback requirements for Williams Road.

## Regular Council Meeting for Public Hearings

Tuesday, April 22<sup>nd</sup>, 2003

Mr. Bob Owens, of 7431 Williams Road, voiced concern about the size of the homes now being constructed in the area surrounding his home. He also clarified information provided to the previous speaker on those homes which had vehicle access from Williams Road and those which only had vehicle access from a lane located behind Bates Road. Mr. Owens also expressed concern about the accuracy of the information which had been sent out by the City as part of the public notification process; and commented further on the unsatisfactory condition of the lane located behind Bates Road.

PH03/4-3

It was moved and seconded

*That Lot Size Policy 5435 be amended to exclude those properties fronting No. 3 Road and Williams Road.*

Bernie Stoltz, 9380 Railway Avenue (Schedule 14)

Shaun Haswell, #127 – 12633 No. 2 Road (Schedule 15)

*Submissions from the floor:*

Ms. Carol Powell, a resident of River's Reach, stated that she had been advised when she purchased her home that any development on the subject property would be two storeys in height and not the 3 storeys now being proposed. As well, she advised that the development application sign on the property indicated that 62 units would be constructed, while the letter from the City had indicated 66; she also questioned the intent of 'subsidized housing' and how this would impact the proposed development, if at all.

## Regular Council Meeting for Public Hearings

Tuesday, April 22<sup>nd</sup>, 2003

Ms. Joanna Rock, a resident of 5800 Andrews Road, voiced concern about the degree to which the roof top of the proposed complex would impact on those residents of 5800 Andrews Road who at the present time had a view of the mountains. She also questioned whether the entrance way to the development could be provided from No. 2 Road rather than Andrews Road, because of the potential increase in noise and traffic congestion on Andrews Road resulting from the project.

Mr. Bob Ransford, 5071 Steveston Highway, stated that scenic views could not be guaranteed, and he urged Council to support a well designed development.

Ms. Carol Powell (supplementary presentation), questioned when construction would commence.

Ms. Olga Ilich (supplementary presentation), provided information on the timing of construction, and in response to questions about building heights, the architect for the project, Mr. Wayne Fougere used a site and elevation map of the project, to explain the proposed building height in relation to the existing street grade.

Ms. Joanna Rock (supplementary presentation) spoke further on the issue of building height and questioned how the road elevation had been taken into account in determining building height.

PH03/4-5

It was moved and seconded  
*That Zoning Amendment Bylaws 7495 and 7490 each be given second and third readings.*

**CARRIED**

PH03/4-6

It was moved and seconded  
*That Zoning Amendment Bylaw 7495 be adopted.*

#### Zoning Amendment Bylaw 7491 (RZ 02-213387)

(22111, 22171 & 22191 Westminster Highway; Applicant: Patrick Cotter Architect Inc.)

#### *Applicant's Comments:*

The applicant indicated that he was available to respond to questions following any submissions made by the public.

#### *Written Submissions:*

None.

#### *Submissions from the floor:*

Ms. Sandra Kilpatrick, of 22100 Wilson Avenue, expressed concern about the removal of all the trees from the existing property and the backfilling of that property over the tree debris and garbage which had been left on the site. She provided information on an easement which existed at the rear of her property, which she had been told, was part of her property. Ms. Kilpatrick then reported on the removal of trees from her property and the destruction of the support system during the preloading process, which had kept her fence (located on the rear property line) erect, and on the difficulties which she was having in getting the developer to repair the fence.

Mr. Patrick Cotter, applicant, and accompanied by Mr. Doug Dueck, of Premier Pacific Development came forward. Mr. Dueck then provided information on the preloading of the subject property and commented on the damage referred to by the previous speaker. He indicated that he would be prepared to replace Ms. Kilpatrick's fence during the construction process.

Ms. Sandra Kilpatrick (supplementary presentation), spoke further on the location of the easement in relation to those properties and the subject property which was located south of Wilson Avenue, and the siting of the fences in relation to this easement. She also expressed concern about the filling in of the drainage ditch located in the easement and the impact which this could have on flooding in the future. Ms. Kilpatrick asked that her fence and her neighbours' fences be re-erected along the south property line.

Dear Sir:

Re: Zoning Amendment Bylaw 7492 (RZ02-221142)  
Location: 9811 Williams Rd.  
Applicants: Stephen Lam

As the neighbours backing onto this property, we are not opposed to the proposed rezoning if the owner/developer promises to remove the overgrow bushes and broken fence and install a high privacy fence between our property and his at his expense

Presently, the fence that is there belongs to him and is in terrible disrepair as over the years the bushes on his property have overgrown and been allowed to push down the fence. At Jenny Beran's suggestion, I contacted Mr Stephen Lam last week and conveyed our wish for a new fence. Mr Lam assured me that he would be responsible for a new fence. We would like this promise in writing, as Ms. Beran indicated that it is normal for a developer to be responsible for this. We would also like to be assured that this would be done as soon as possible, before developing the property.

We are also concerned that the houses are designed in such a way to afford privacy in our own backyard.

Re: Amendment to Lot Size Policy 5441 (Section 27-4-6) and Rezoning of 9811  
Williams Road (RZ 02-221142)

We will like to express our concerns about the proposed amendment and rezoning. We strongly oppose to these changes because they will significantly disrupt the streetscape of a well-established neighbourhood and introduce more traffic to the existing roads.

The proposed rezoning will create smaller lots that are not in keeping with the streetscape of the established neighbourhood. The new lots, only half as wide as the existing lot, will look out of place among the regular-sized lots. This may reduce the values of the surrounding properties and prompt other owners to sell their homes and move to a different area, even driving them out of Richmond. The best example of this is on another section of the Williams Road, between Shell and No. 5 Road. More than five lots have been sold in the last year and subdivided into smaller lots, with more lots now being put on the market for sale.

Williams Road currently has only one lane both ways with an additional centre lane for making left turns. To create new lots will introduce more vehicles into the area. The proposal with the new lane access, in our opinions, will not solve the problem, because cars still need to slow down to enter the lane. Also, it may be more hazardous for bikers utilizing the bike lane.

We can see the implementation of a policy like this in new developments or to revive a deteriorated neighbourhood. However, to allow for rezoning of this or other lots in this well-established and well-maintained neighbourhood is not going to benefit the residents or property owners. The only beneficiary of this proposed policy will be builders who want to buy the lots cheaply, subdivide them, build new houses and sell those houses for maximum profit.

We hope the Council will consider these points when making their decisions on this application. As home owners and people who care very deeply for this neighbourhood, we oppose to any amendment to Lot Size Policy 5441 and rezoning of the lots.

Dear Ms. Jenny Beran:

**RE: Notice: A Change to the Single Family Lot Size Policy 5435**  
**(File: RZ 02-219757 and RZ 02-221450)**

---

We are the owners of the property located at 7880 Broadmoor Blvd. Richmond, BC and we are writing to oppose the proposed rezoning applications for 7231 Williams Road and 9971 Greenlees Road. We had acquired this property for only few months. My finance had been lived in Vancouver area for over 20 years. And myself used to lived in Vancouver. At first, my fiancé was reluctant to move from Vancouver to Richmond. But he has seen the area in Broadmoor area, and the house that we purchase has a lot of trees and greens surrounded, and also a nice community. Thus, we decided to purchase this lovely house in this neighborhood. We enjoyed the large lot size, nice back yard and a fine neighborhood. We believe spaces could bring to our next generation a better healthier and happier lifestyle.

Furthermore, the applications are contrary to the existing Single Family Lot Policy 5435, it will reduced the lot width from 59 feet to 29.5 feet or 32.8 feet. We believe that by allowing these small single family lots in our area, not only our neighborhood will be affected, and also the value of our property will be greatly affected. Please reconsider this proposal.

Thank you for your kind attention.

Yours truly,

Attention: Mayor and Council:

Dear Sirs and Mesdames,

**Re: Zoning Amendment Bylaw 7495 and 7490**  
**12511 No. 2 Road**

I enclose for your information a copy of a rendering and some information that we will be giving out to the residents surrounding the proposed development noted above.

You may recall that the area was redesignated to Multi-family in the Official Community Plan last September. We have spent the intervening months working out the more detailed development plans with staff.

The industrial development that is currently on the site is now 35% vacant. A further 27% of the space is rented on a month to month basis because the leases are expired. Another 27% of the space has leases expiring this year, and the remainder of the leases representing 2 tenants, or 10% of the space has leases that expire in 2004.

The building is in a poor state of repair. In fact, a portion of the roof collapsed just recently and significant work needs to be done in order to keep the building in use as an industrial building. The current owners do not consider this a viable option.

If there are questions about the proposed development, please call me at 604-271-5556.

Yours truly,

Olga Ilich

PROPOSED TOWNHOUSE DEVELOPMENT  
AT 12511 NO. 2 ROAD, RICHMOND

## **PROPOSED TOWNHOUSE DEVELOPMENT 12511 NO. 2 ROAD, RICHMOND, B.C.**

**CENTRO PROPERTIES GROUP and JEMA PROPERTIES CONSULTING LTD.** have applied to the City of Richmond for approval to create a new townhouse development on the 2.97 acre property located at the north-east corner of Andrews Road and No. 2 Road.

The project will consist of 63 townhouses, consisting of 12 two-bedroom units and 51 three-bedroom units that will be built in clusters of two to six units. These units are to be built around an internal driveway system.

All the units will be 3-storeys with a maximum height of 12 metres; however, the bottom floor will be dropped below Andrews Road. Each townhouse will provide two parking spaces and crawl space in the basement level with two storeys of living space above. The project will have 13 visitors' parking spaces. The units will have covered, wrap-around verandas and a 5.0 metre landscape hedging will provide a natural buffer along No. 2 Road between this residential area and the farmlands.

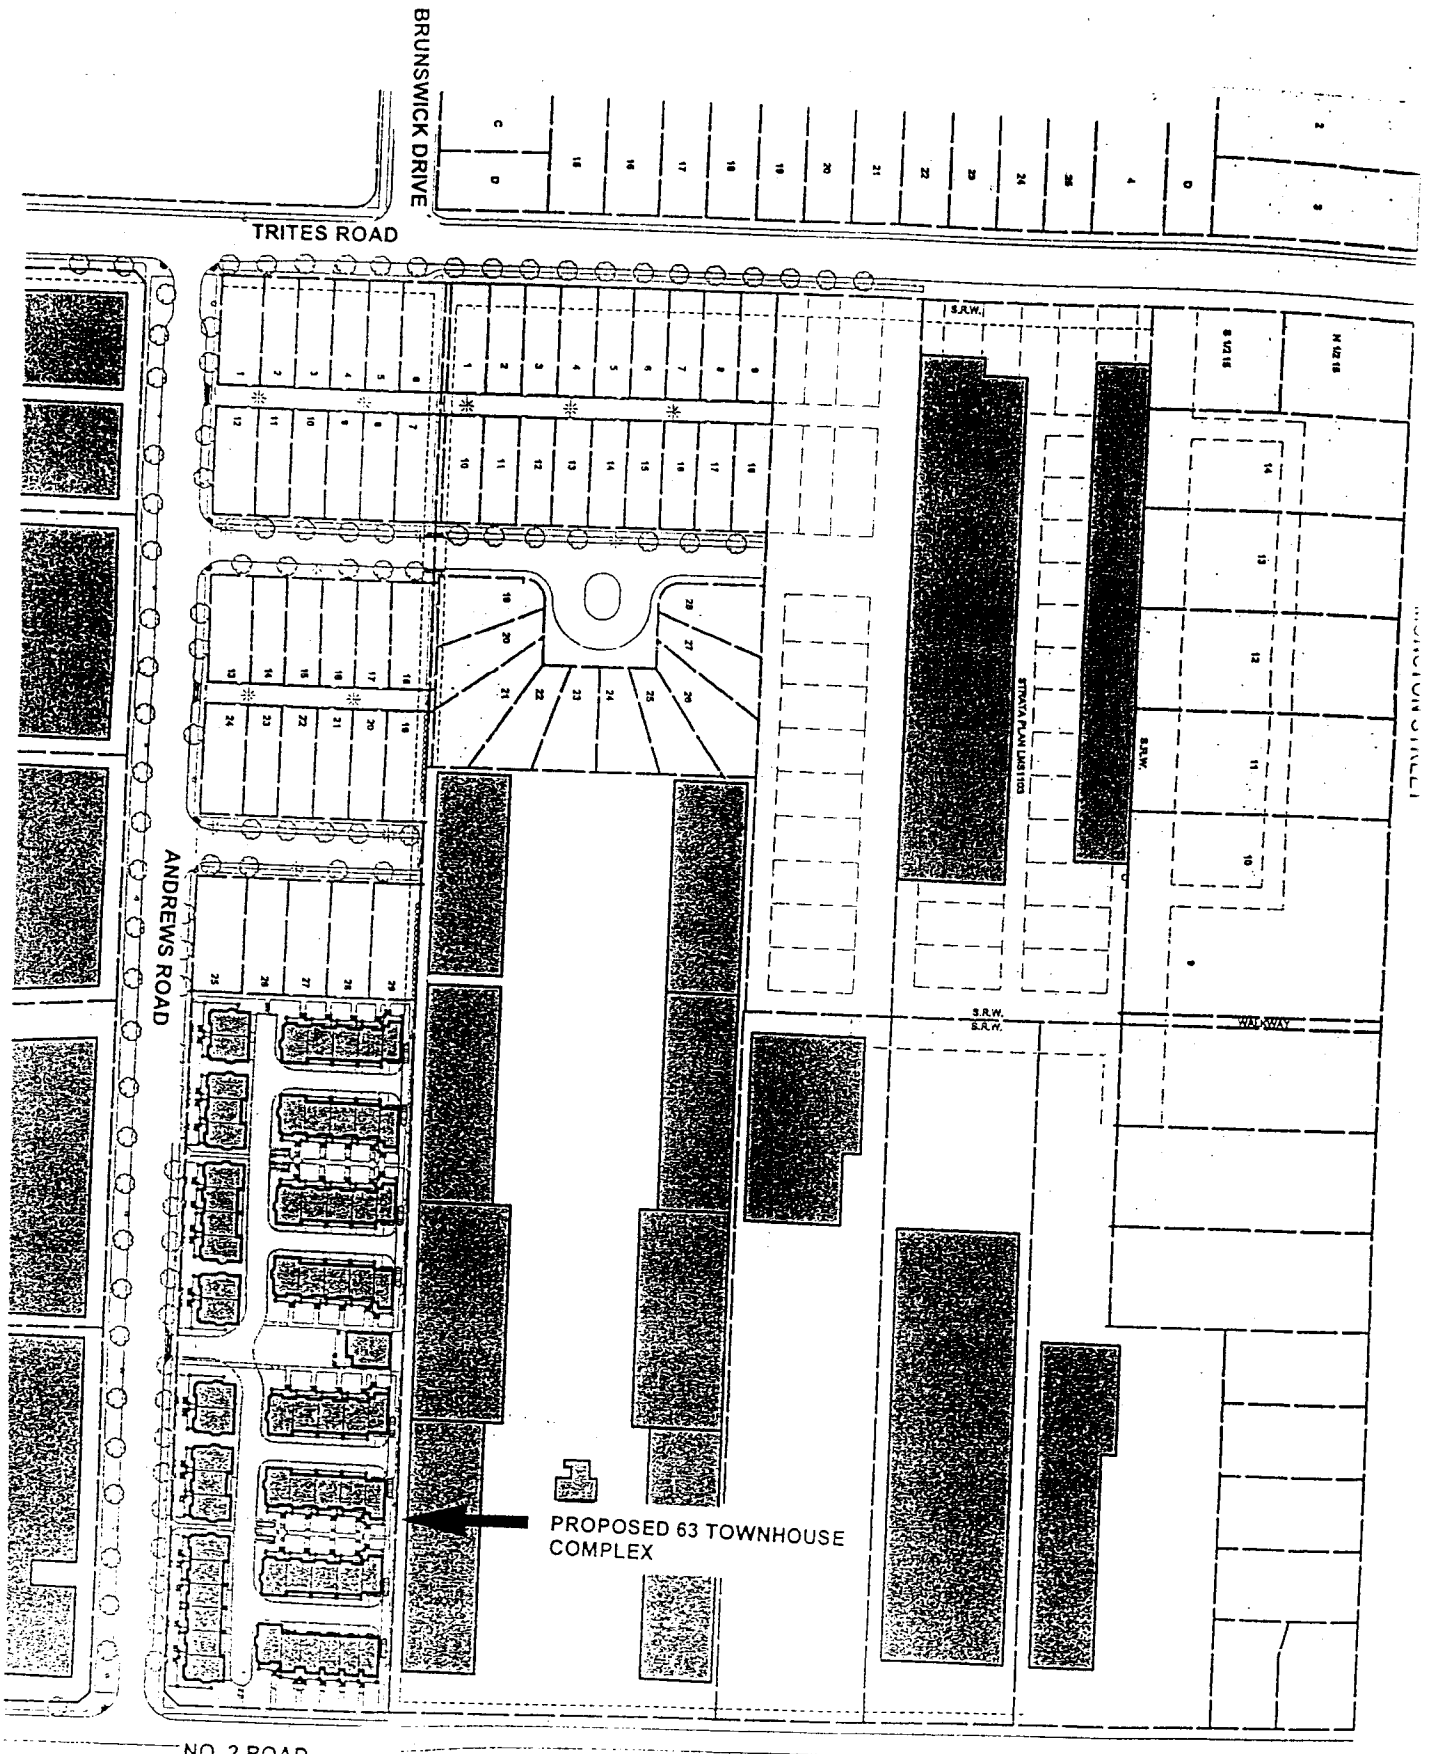

The overall development will have only one entranceway which will be located off Andrews Road.

This proposed townhouse development provides a well planned transition between the condominium developments to the south and the existing industrial development to the north.

Re: 12511 No. 2 Road Centro Properties Group & Jema Properties request for rezoning.

My husband and I live on Andrews Road at No. 2 Road. We feel that 63 3-storey townhouse units will make Andrews Road extremely high density and will detract from the quality of life for those living here already. Also, allowing for a narrower road (ie: 4.5m set back) will cause problems for existing traffic, much less adding substantially to the current usage if the 63 units are built.

We feel that fewer townhouses and leaving the road the current width would be an alternative that would be attractive to current residents in the area and would not inhibit the developers from pursuing this project. Certainly it would be nice to see the "falling down" warehouse units demolished, but we don't want to see the area over saturated with housing developments.

Thank you for taking the time to consider our concerns.

Re: Notice of Public Hearing – Zoning Amendment Bylaw 7495 (RZ-02-029424)

Dear Sir / Madam,

Recently I received this notice of public hearing in the mail. When the original rezoning was passed that would "clean up our neighbourhood" it entail a two-story townhouse that would maintain our beautiful view of the North Shore Mountain?

This will negatively affect us two fold:

- (1) We will lose our beautiful view of the North Shore Mountain, which we paid high price for my unit.
- (2) Our Property value will decrease, as we no longer have a Mountain View.

So, I am voting against to put two or three-story apartment on the location of 12511 No. 2 Road.

Looking forward to hear from you soon.

Best Regards,

There is a meeting tonight regarding the rezoning of the above-mentioned land. As a neighbour across the street, I would like to express my enthusiastic support for this rezoning. I have viewed preliminary sketches for the proposed development and find them to be a major improvement to the area and in keeping with the lovely residential ambience being created on Andrews Road.

As a resident of the neighbourhood I am happy to see the re-zoning of this land as proposed.

Yours truly,

Re: Bylaws 7495 + 7490

With reference to the above-mentioned zoning amendment by-laws, I would like to state my objection to permit the development of 3-storey townhouse units, as opposed to the originally proposed 2-storey units.

The existing appearance of Andrews Rd. would change dramatically, under these new amendments. Present owners of the condominiums on Andrews Rd. purchased their properties on the understanding that the street would retain it's open concept and views would not be impeded and that the consistency of the neighbourhood would be maintained. 3-Storey units would make for a much denser overall appearance.

I therefore request that the proposed amendments be denied.

Yours truly,

Penny Wu.

RE: Townhouse Development in the Trites Area: 12511 No. 2 Road. Richmond

Dear Sirs:

My family and I have lived in this area for more than 40 years. We were told this area would become residential a long time ago and we have supported and looked forward to the redevelopment of this area for over the last 10 years.

I hope this time around Council will approve the proposed development and continue the change-over to residential.

Yours truly,

Dear Mr. McKenna,

I support the re-development of the property stated above to residential.

I think the proposed townhouse development will be a good addition to the neighborhood.

Sincerely

RE: Public Hearing – Bylaws 7490 & 7495 – 12511 No. 2 Road, Richmond

I am aware of the proposal that has been made to rezone the property at 12511 No 2 Road from Industrial to Residential. I have no objection to such a rezoning.

Yours truly,

Dear Sirs,

You have a rezoning on the agenda tonight for a property located at 12511 No. 2 Road. I am a Steveston business owner and I am in support of the development. Densifying the area with more residents makes the village more viable commercially, and I am in favour of that.

MEETING FOR HOLDING PUBLIC  
HEARINGS HELD ON TUESDAY,  
APRIL 22<sup>ND</sup>, 2003

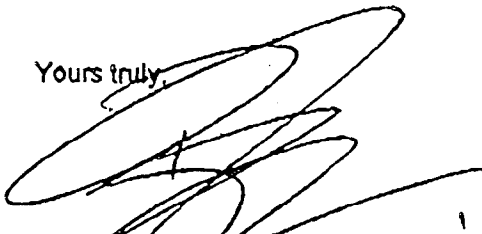

I would like to comment on the rezoning of the property at the corner of No. 2 and Andrews Road.

I have been a Steveston resident all my life. My family has been in Steveston for several generations and used to own and operate a boat-building business in Steveston that built boats for the fishing industry. I used to fish for a living as did many of my other relatives living in Steveston.

I now own a commercial property on Bayview Street. I would like to comment that I welcome additional residents to the area. I don't think the industrial land being rezoned is being used for fishing industry purposes any more, but the new residents do use the hardware store and the other shops in Steveston that were originally intended to serve the fishing industry. More residents will keep the commercial area of Steveston alive.

Thank you for taking my views into consideration.

Dear Mayor and Councilors:

**Re: townhouse development @ No.2 Road and Andrews Road**

I will not be able to attend the public hearing but I want to voice my support for the redevelopment of this property. The residential use is more compatible with the condominiums across the street. I live in the developments south of Andrews Road.

I hope you will approve this proposal to start getting the area cleaned up.

Thanks
