Attention: To All Proponents

Dear Sir/Madame:

Re: 4011P Request for Proposal Design, Supply & Construct a Climbing Wall at the Richmond Speed Skating Oval - Addendum 3

This Addendum includes items of clarification, forms part of the Contract Documents and shall be read, interpreted and coordinated with all other parts. Please review and consider the following information in the preparation of your proposal:

Q1. Is it a must the project to be completed 31.12.2010 - I believe this terms are almost impossible. You have requested Real Rock looking wall - this means fibreglass panels. There is technological time to produce this panels and to make them strong and safe for the public. Also my experience shows that a production will not start before 01.10.20010 even if you choose the company in a week. Also by law a local engineer should sign all the documents so this takes time also. Is it possible to fulfill an offer with later day of completing the project or not?

A1. Once the job is awarded, our hope that the successful proponent has an efficient time plan where the project will not incur any delays due transport, available materials, construction, assembly and labour issues.

Q2. Is it possible to send me some dimension of the place including all doors etc. This will help us to prepare a good quality design .

A2. Please contact Amy Livingston at alivingston2@richmond.ca with a copy to purchasing@richmond.ca for drawings of the space.

Q3. Is it possible to visit the site and take photographs?

A3. Yes, please contact the following to arrange for a time. Please note, this is not an escorted site visit, questions will NOT be addressed, nor any additional information provided.

Gerry De Cicco, Senior Manager

Richmond Olympic Oval

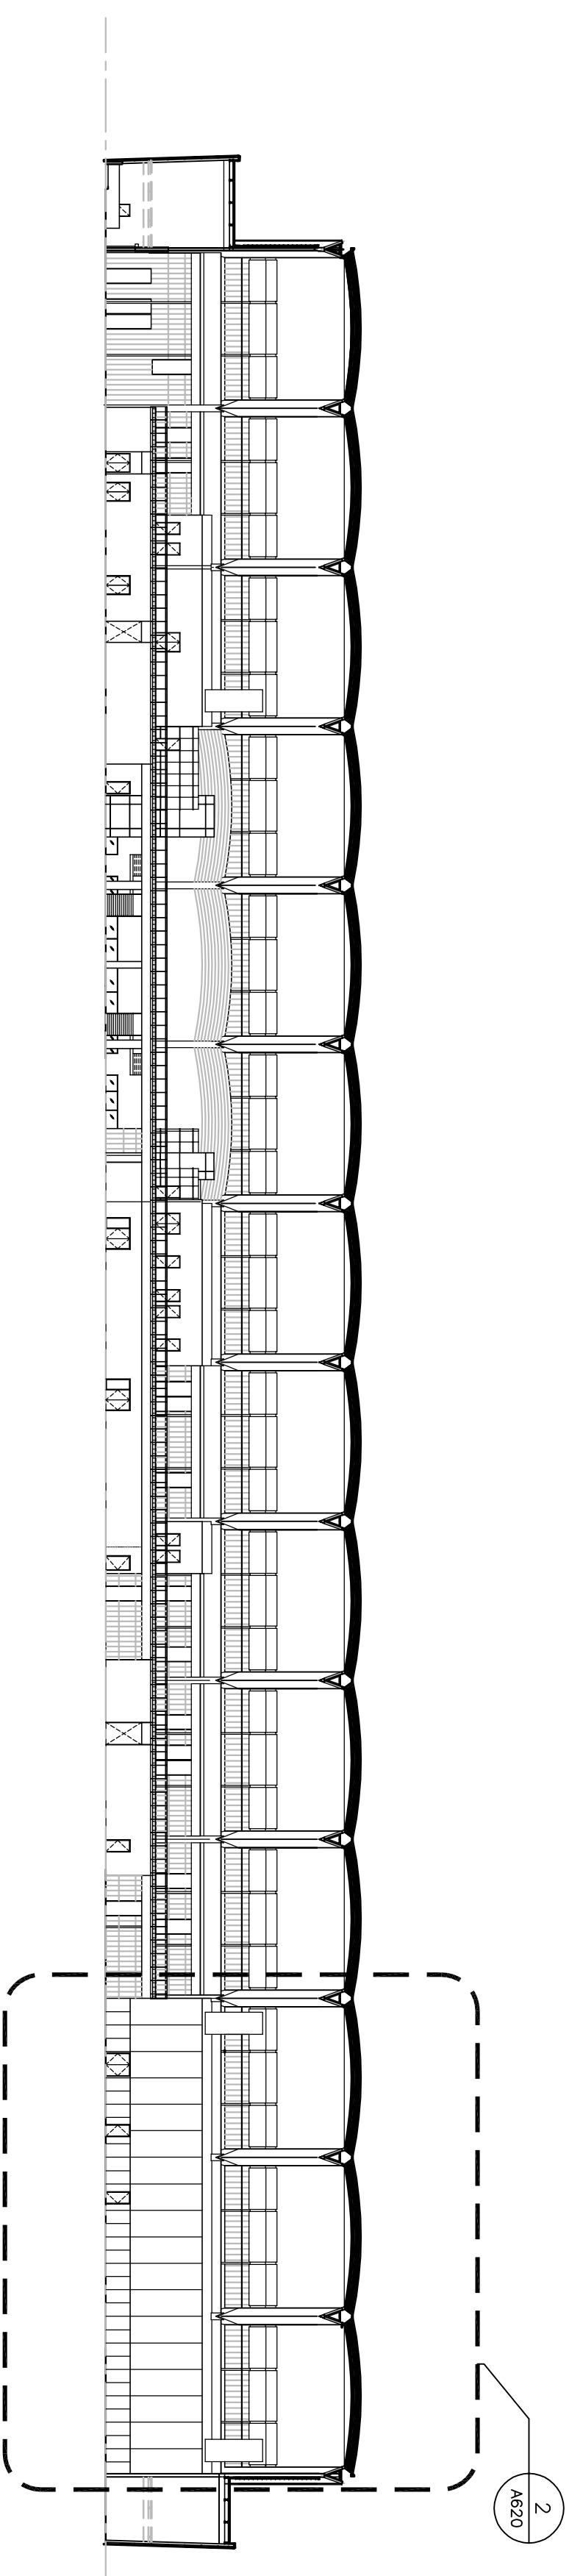

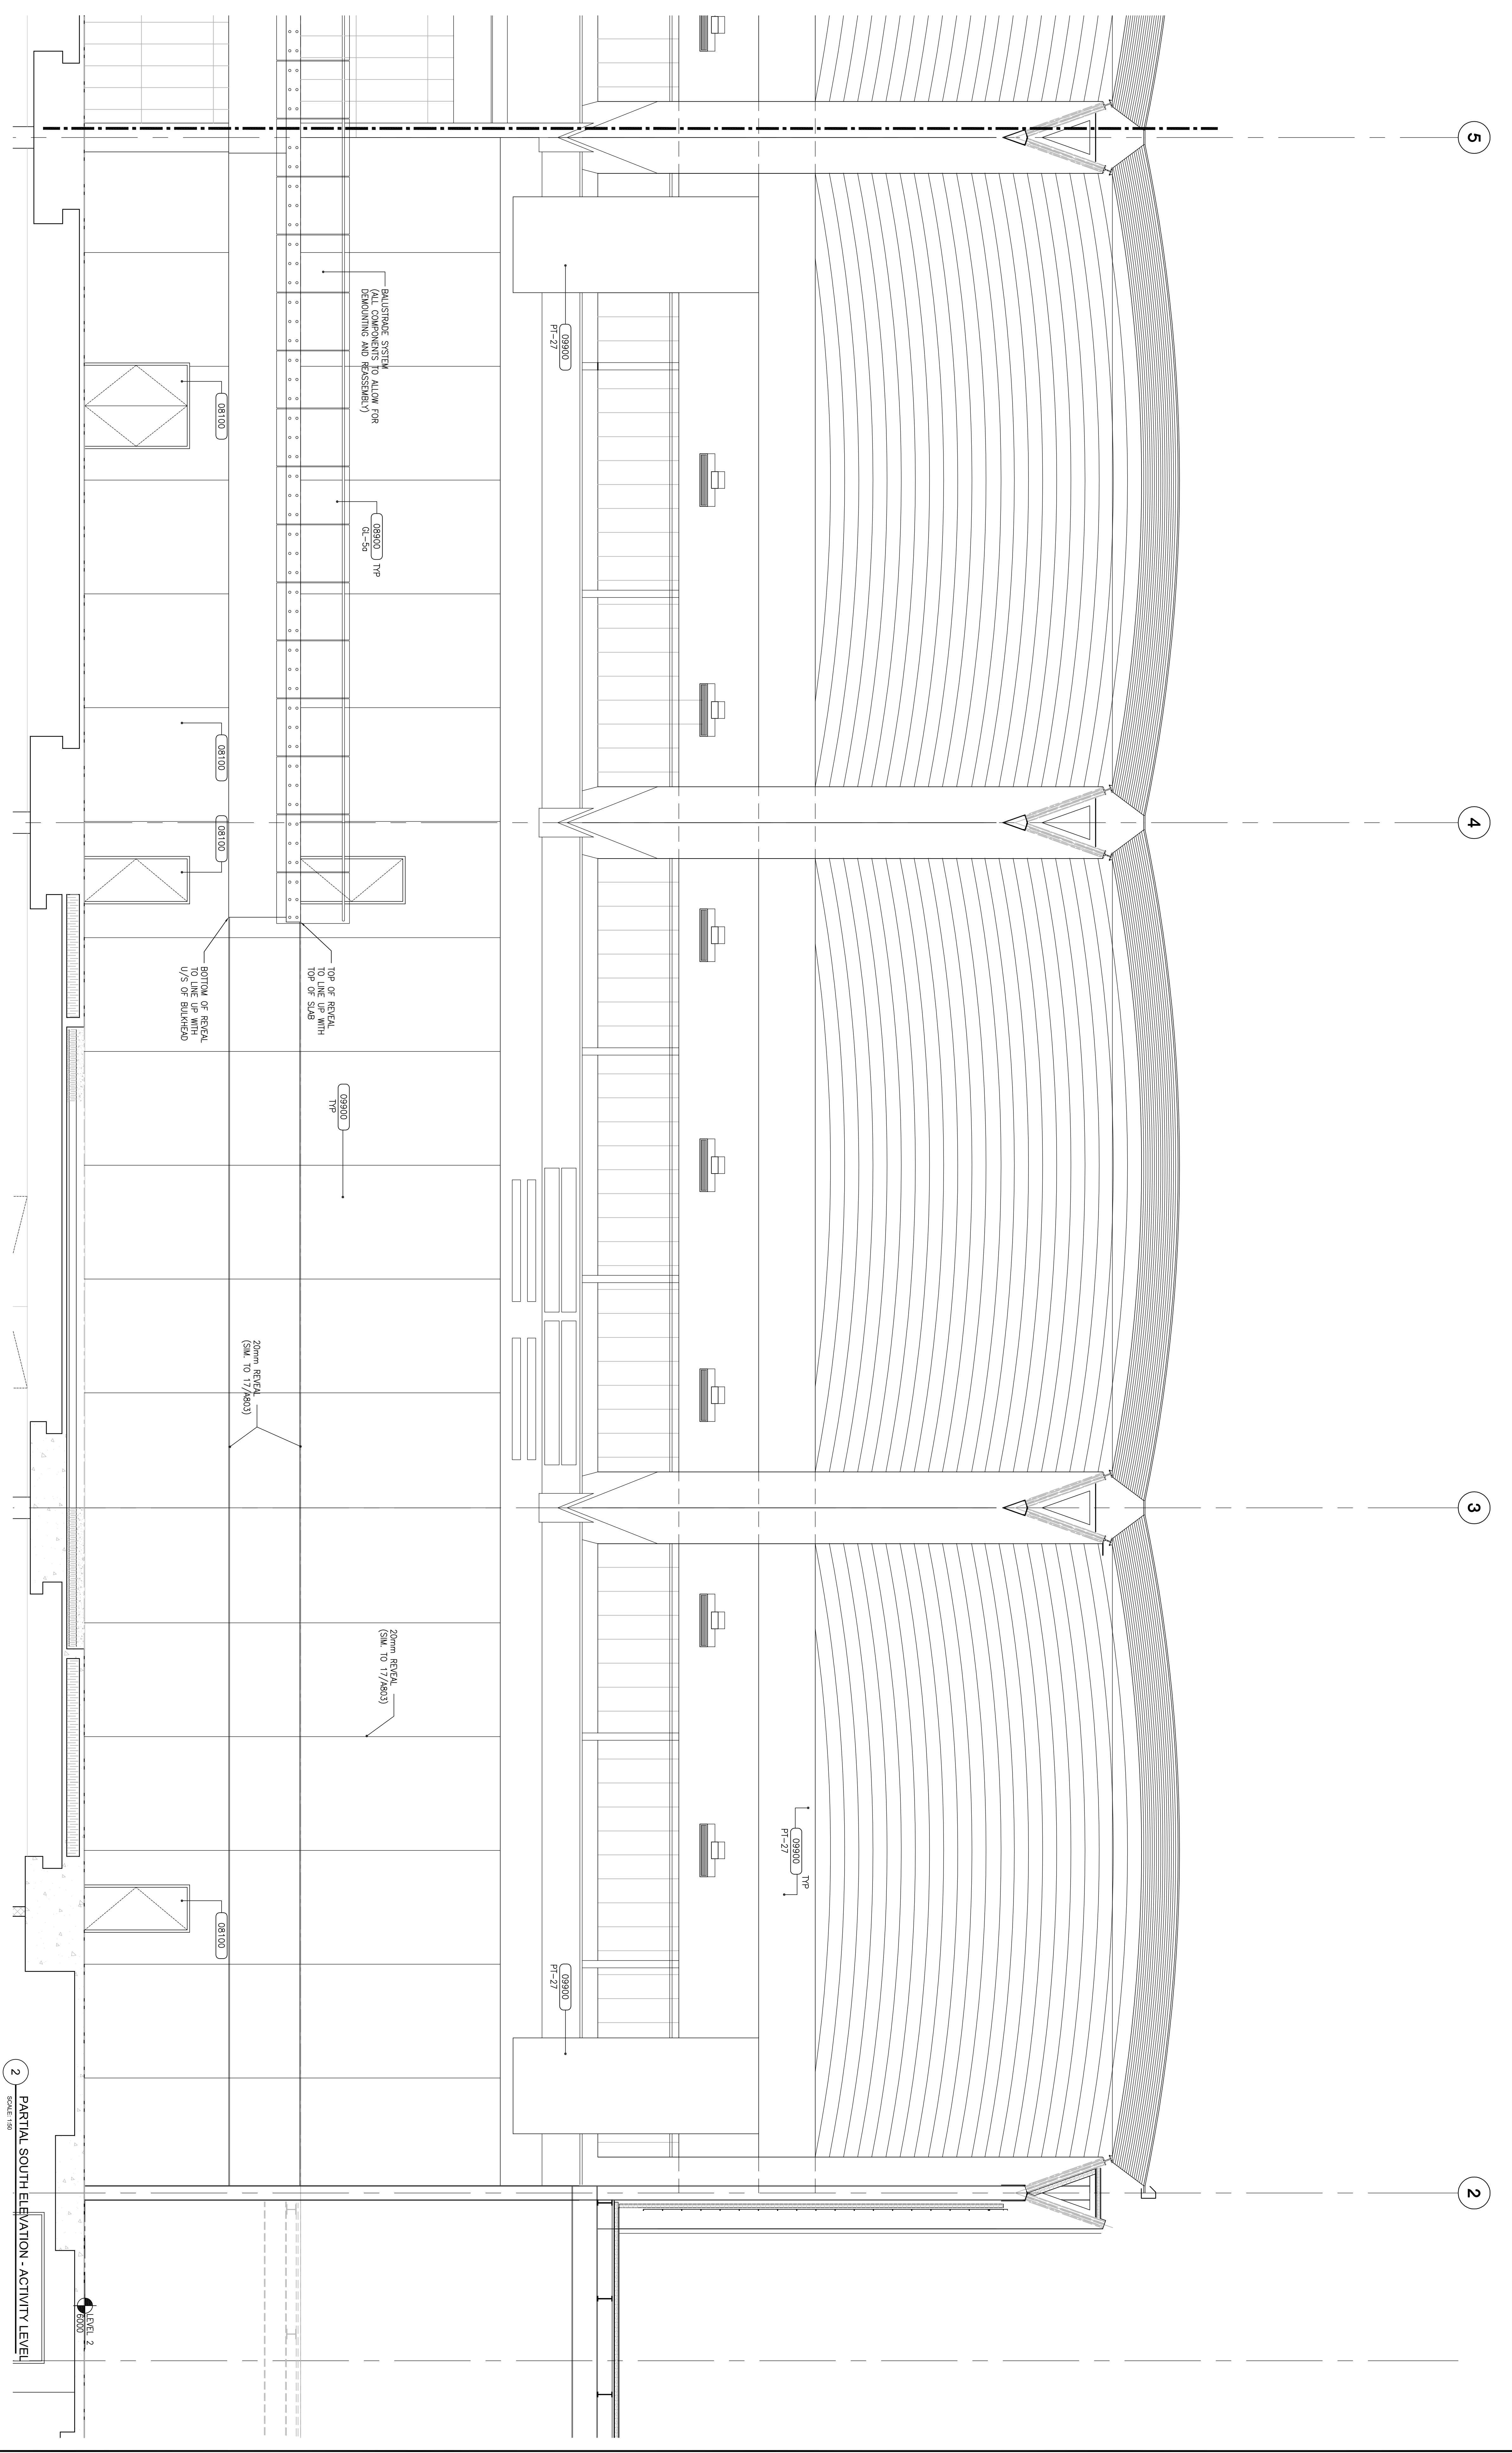

T: 778 296 1439
