Attention: To All Proponents

Dear Sir/Madame:

Re: Addendum No. Two for Request for Proposal - 4553P Supply and Installation of CCTV and Inspections Equipment

This Addendum includes items of clarification, forms part of the Contract Documents and shall be read, interpreted and coordinated with all other parts. Please review and consider the following information in the preparation of your proposal:

Q. By relined 6" pipe, do you mean 6" and larger?

A. Yes. Relined 6" pipe will have an inside diameter of slightly less than 6" due to the relining material.

Q. What do you mean 'mounted' coring machine?

A. The City envisions the coring machine being attached to an adjustable arm that swings from the vertical position inside the vehicle (stored) to the horizontal position extending out the back of the truck (in use). The coring machine shall also be detachable to be used as a portable device.

Q. Can the configuration of the inside of the vehicle be changed?

A. Changes to the configuration of the truck's working area are not preferred, but may be considered if they provide better value to the City, and are within the project budget.

Proponents must sign and include this Addendum with their submission.

Signature, Name and Title

Yours truly,

Sumita Dosanjh
