The following items must be completed and submitted with your *Rezoning Application*:

1. Letter outlining the proposal in full along with proof of ownership if you have purchased the property in the last six months. Proof of new ownership is acceptable with a copy of the interim agreement or transfer of property title.
2. 8 copies of a site plan showing a generalized layout of the proposed use; note those buildings on the site proposed to remain in place, be demolished or relocated on or off the site. Depending on the nature of the application, elevations of all proposed new buildings and structures as well as the location of any other improvements on the land (parking lots, driveways) and surrounding roads and lanes may be required. Where a portion of a parcel is the subject of an application, a plan showing the precise dimensions of the proposed rezoning with distances and bearings is also required.
3. Completed *Site Profile* (separate attachment).
4. The applicant will be required to undertake a servicing capacity analysis as part of their rezoning application unless otherwise specified by the City. This capacity analysis will assess the infrastructure needs to adequately service the proposed and future developments within the designated drainage, sanitary, and water catchment areas and recommend upgrades as required. This analysis must be completed and approved by City Engineering staff prior to the staff report on the rezoning application being prepared. Any servicing capacity upgrades identified through the servicing analysis are to be provided at the applicant's cost and are currently not eligible for development cost charge credits.
5. City Council, through the enactment of Tree Protection Bylaw No. 8057, has deemed that trees are an important element of the urban environment. The Tree Protection Bylaw is intended to reduce the unnecessary damage or removal of trees and requires that all trees on sites subject to a rezoning application be addressed during the review process. Also, through the enactment of Floodplain Designation and Protection Bylaw No. 8205 and associated changes to Richmond Zoning Bylaw 8500, an understanding of existing and proposed grading work is required as part of your rezoning application. To enable staff to assess tree protection and potential issues affected by proposed grading work, a **legal survey**, prepared by a registered BC Land Surveyor, and a preliminary **site plan**, must be submitted with your rezoning application. The legal survey and site plan must include all items indicated in the attached Bulletin entitled *Survey and Site Plan Guidelines* (DEVAPPS-01). A **Certified Arborist's Report** may also be required as part of your rezoning application if you propose to remove bylaw-sized trees at future development stage.

Contact: 604-276-4017 Fax: 604-276-4052

Richmond Zoning Bylaw 8500 requires a *Rezoning Application* to be filed by the owner of the land. Where an agent purports to act on behalf of an owner, it will be presumed that (a) he or she has the authority of the owner to act on his or her behalf and (b) that the agent will be responsible for all matters connected with the development, including the timely payment of fees for services rendered by the City. Please note that where the owner is a registered company, the signature of all the Directors or authorized signatures will be required. If you have any questions, please call the Zoning staff at 604-276-4017.

It is also important for owners and agents to notify the City in writing of any change in their status with respect to the application, as they will be held responsible for the payment of costs incurred by the City while they appear on the file as the person responsible for the application. This is particularly important where the agent has been relieved of his or her authority to act on behalf of the owner, or where the property has been sold to a third party. If you have any questions or changes, please contact the Development Applications Clerk at 604-276-4395.

Applicants are encouraged to consult with the Development Applications Division prior to making their application to ensure they are aware of pertinent criteria and the extent of documentation required to support the application. Additional material is available from the Development Applications Division with respect to *Rezoning*. If you have any questions or would like to know who to contact in the Development Applications Division, please call the Development Coordinator at 604-276-4164.

Survey & Site Plan Guidelines

No.: DEVAPPS-01

Date: 1997-10-27

Revised: 2009-03-09

Purpose:

- To inform **all applicants for development applications (i.e. rezonings, subdivisions, development permits etc.)** to submit a **survey and site plan** with the application. *Site survey requirements for areas designated as Environmentally Sensitive are different and applicants should contact the Planning and Development Department for additional information.*

Survey:

- The **survey** should include the following (see attached sample):
 - All dimensions included on the survey should be **metric**.
 - The location and type of all known **utilities** entering or immediately adjacent to the subject site.
 - Legal description, rights-of-way, easements, existing property lines and building footprints, existing lot dimensions and area, and existing grades** at each of the four corners of the subject lot, including the **existing average grade** (i.e. the average of the existing grade at the lot corners and building/s corners).
 - Elevations at 1.5 m onto adjacent properties.
 - Elevations of existing retaining walls.
 - The highest elevation of the crown of any public road abutting the lot.
 - The **location and diameter** of:
 - ALL** trees on the **subject site** having a trunk diameter of 20 cm or greater measured at a point 1.4 m above the ground. **NOTE:** the diameter of trees having multiple trunks or clumped trees is the sum of 100% of the diameter of the largest trunk plus 60% of the diameter of each additional trunk;
 - ALL** trees or hedges within 2 m of the property line on adjacent lots;
 - ALL** trees or hedges on adjacent lots whose crown (drip line) encroaches onto the subject site;
 - ALL** trees or hedges on any City street or lane allowance adjacent to the subject site;
 - ALL** tree stumps greater than 20 cm in diameter.
 - The **crown** (drip line) of all trees identified in item 7.
 - The **type** (i.e. coniferous or deciduous) of all trees identified in item 7.
 - The **base elevations** (tree grades) for all trees identified in item 7.

See attached →

Site Plan:

- The **site plan** should include the following (see attached sample):
 1. All dimensions included on the site plan should be **metric**.
 2. The location and type of all known **utilities** entering or immediately adjacent to the subject site.
 3. **Legal description, rights-of-way, easements**, proposed **property lines**, proposed **building footprints/envelopes**, proposed **lot dimensions** and **area**, **existing grades** at each of the proposed **lot corners**.
 4. Elevations at 1.5 m onto adjacent properties.
 5. The highest elevation of the crown of any public road abutting the subject lot.
 6. All **tree** information from the **Survey**.
 7. Existing and proposed **finished grades** at all proposed **building/s corners** and proposed **finished slab elevations**.
 8. The **finished site grade** of the proposed **lot corners** and the **average finished site grade** (i.e. the average of the finished grade at the **lot corners** and **building/s corners**).
 9. All proposed **retaining walls** at property lines, with top and bottom of wall elevations.

SCHEDULE 1 Site Profile

Version 4.0

Introduction

Under section 40 of the *Environmental Management Act*, a person who knows or reasonably should know that a site has been used or is used for industrial or commercial purposes or activities must in certain circumstances provide a site profile.

Schedule 2 of the Contaminated Sites Regulation sets out the types of industrial or commercial purposes or activities to which site profile requirements apply.

If section 40 of the Environmental Management Act applies to you and you know or reasonably should know that the site has been used or is used for one of the purposes or activities found in Schedule 2 of the Contaminated Sites Regulation, you may be required to complete the attached site profile.

Notes/Instructions:

Persons preparing a site profile *must* complete Section I, II and III, answer all questions in sections IV through IX, and sign section XI. If the site profile is not satisfactorily completed, it will not be processed under the *Environmental Management Act* and the Contaminated Sites Regulation. Failure to complete the site profile satisfactorily may result in delays in approval of relevant applications and in the postponement of decisions respecting the property.

The person completing this site profile is responsible for the accuracy of the answers. Questions must be answered *to the best of your knowledge*.

Section 27 (1) of the *Freedom of Information and Protection of Privacy Act* requires that provision of personal information concerning an individual must be authorized by that individual. Persons completing the site profile on behalf of the site owner must be authorized by the site owner.

One (1) site profile may be completed for a site comprised of more than one titled or untitled parcel, but individual parcels must be identified.

The latitude and longitude (accurate to 0.5 of a second using North American Datum established in 1983) of the centre of the site must be provided. Also, please attach an accurate map, containing latitude, longitude and datum references, which shows the boundaries of the site in question. Please use the largest scale map available.

If the property is legally surveyed, titled and registered, then all PID numbers (**P**arcel **I**dentifiers – Land Title Registry system) must be provided for *each* parcel as well as the appropriate legal description.

If the property is untitled Crown land (no PID number), then the appropriate PIN numbers (**P**arcel **I**dentification **N**umbers – Crown Land registry system) for each parcel with the appropriate land description should be supplied.

If available, the Crown Land File Number for the site should also be supplied.

Anything submitted in relation to this site profile will become part of the public record and may be made available to the public through the Site Registry as established under the *Environmental Management Act*.

Under section 43 of the *Environmental Management Act*, corporate and personal information contained in the site profile may be made available to the public through the Site Registry. If you have questions concerning the collection of this information, contact the Site Registrar, at site@gov.bc.ca. For questions on site profiles, please send a message to siteprofiles@gov.bc.ca.

IV AREAS OF POTENTIAL CONCERN			
	Is there currently or to the best of your knowledge has there previously been on the site any (please mark the appropriate column opposite the question):	YES	NO
A.	Petroleum, solvent or other polluting substance spills to the environment greater than 100 litres?		
B.	Residue left after removal of piled materials such as chemicals, coal, ore, smelter slag, air quality control system baghouse dust?		
C.	Discarded barrels, drums or tanks?		
D.	Contamination resulting from migration of substances from other properties?		
V FILL MATERIALS			
	Is there currently or to the best of your knowledge has there previously been on the site any deposit of (please mark the appropriate column opposite the question):	YES	NO
A.	Fill dirt, soil, gravel, sand or like materials from a contaminated site or from a source used for any of the activities listed under Schedule 2?		
B.	Discarded or waste granular materials such as sand blasting grit, asphalt paving or roofing material, spent foundry casting sands, mine ore, waste rock or float?		
C.	Dredged sediments, or sediments and debris materials originating from locations adjacent to foreshore industrial activities, or municipal sanitary or stormwater discharges?		
VI WASTE DISPOSAL			
	Is there currently or to the best of your knowledge has there previously been on the site any landfilling, deposit, spillage or dumping of the following materials (please mark the appropriate column opposite the question):	YES	NO
A.	Materials such as household garbage, mixed municipal refuse, or demolition debris?		
B.	Waste or byproducts such as tank bottoms, residues, sludge, or flocculation precipitates from industrial processes or wastewater treatment?		
C.	Waste products from smelting or mining activities, such as smelter slag, mine tailings, or cull materials from coal processing?		
D.	Waste products from natural gas and oil well drilling activities, such as drilling fluids and muds?		
E.	Waste products from photographic developing or finishing laboratories; asphalt tar manufacturing; boilers, incinerators or other thermal facilities (e.g. ash); appliance, small equipment or engine repair or salvage; dry cleaning operations (e.g. solvents); or from the cleaning or repair of parts of boats, ships, barges, automobiles or trucks, including sandblasting grit or paint scrapings?		

VII TANKS OR CONTAINERS USED OR STORED, OTHER THAN TANKS USED FOR RESIDENTIAL HEATING FUEL			
	Are there currently or to the best of your knowledge have there been previously on the site any (please mark the appropriate column opposite the question):	YES	NO
A.	Underground fuel or chemical storage tanks other than storage tanks for compressed gases?		
B.	Above ground fuel or chemical storage tanks other than storage tanks for compressed gases?		
VIII HAZARDOUS WASTES OR HAZARDOUS SUBSTANCES			
	Are there currently or to the best of your knowledge have there been previously on the site any (please mark the appropriate column opposite the question):	YES	NO
A.	PCB-containing electrical transformers or capacitors either at grade, attached above ground to poles, located within buildings, or stored?		
B.	Waste asbestos or asbestos containing materials such as pipe wrapping, blown-in insulation or panelling buried?		
C.	Paints, solvents, mineral spirits or waste pest control products or pest control product containers stored in volumes greater than 205 litres?		
IX LEGAL OR REGULATORY ACTIONS OR CONSTRAINTS			
	To the best of your knowledge are there currently any of the following pertaining to the site (please mark the appropriate column opposite the question):	YES	NO
A.	Government orders or other notifications pertaining to environmental conditions or quality of soil, water, groundwater or other environmental media?		
B.	Liens to recover costs, restrictive covenants on land use, or other charges or encumbrances, stemming from contaminants or wastes remaining onsite or from other environmental conditions?		
C.	Government notifications relating to past or recurring environmental violations at the site or any facility located on the site?		
X ADDITIONAL COMMENTS AND EXPLANATIONS			
<p>(Note 1: Please list any past or present government orders, permits, approvals, certificates and notifications pertaining to the environmental condition, use or quality of soil, surface water, groundwater or biota at the site.</p> <p>Note 2: If completed by a consultant, receiver or trustee, please indicate the type and degree of access to information used to complete this site profile.
