FireTEAMTM

Testing and Training System

FireTEAM Testing System was developed to measure specific aptitudes important to the occupation of firefighter and emergency response personnel. There are four components to FireTEAM testing system: a human interaction test, a mechanical aptitude test, a math test and a reading ability test. All test items were developed through rigorous research with many panels of experienced firefighting and fire service professionals. You don't need experience to answer the questions in this test. Common sense is always your best guide.

Character is important to us. You will be required to sign a security and confidentiality agreement stating that you have not and will not violate test security through coaching or exchange of specific information about test items. Breach of this agreement is subject to prosecution under federal copyright law and would be viewed as an unacceptable integrity failure for an employee or prospective employee.

The answer sheet is machine scored so mark only one answer for each question and fill in the circle completely. If you mark more than one answer, you will get the question wrong. If you don't know the answer to a question, the best strategy is to guess because you may get it right anyway and you will definitely get it wrong if you don't answer.

Four Components of FireTEAM Testing System

FireTEAM Video-Based Human Relations Test ***28 Scenarios, 76 Questions, 57 Minutes***

Part I

FireTEAM Video-Based Human Relations Test focuses on teamwork and human relations skills and was specifically designed for firefighters. You will watch a video segment, then choose the BEST course of action in a multiple choice format. Once you have chosen the BEST possible course of action, you will be asked to identify the WORST possible course of action. This test is presented on video and the items play without stopping. You will have 10 seconds to answer each question.

You don't need experience to answer these questions. FireTEAM Video-Based Human Relations Test is not intended to be a test in any way of your knowledge of policy or technical aspects of the job. Any such information that may be needed to answer a question is provided in the test. For instance, in the video you will hear firefighters instructing business owners about safety requirements. You are not expected to know anything other than what is stated. Base your answers only on information given in the test and your own common sense.

FireTEAM Video-Based Human Relations Test is not meant as training or as an example of how firefighters should handle their jobs. In some cases, you will see firefighters who make poor choices about what to do.

Testing and Training System

Also, none of the questions or answers are meant to be tricky. Although all the answers may not be equal in terms of common sense, they would all be choices available to the firefighter. In no case is an answer wrong because the choice would not be possible. For instance, a firefighter can make decisions based on circumstances about how to work with members of the public in enforcing safety regulations.

Part II

In addition to answering the questions on Part I of FireTEAM Video-Based Human Relations Test, you will be instructed to observe the behaviors of the individual firefighters portrayed. You will have the opportunity to observe behavior on multiple occasions for many of the firefighters. Part II of FireTEAM Video-Based Human Relations Test consists of questions about these firefighters and their behaviors. Part II is on the same video and immediately follows Part I.

FireTEAM Animated Mechanical Aptitude Test 36 Questions, 43 Minutes

FireTEAM Animated Mechanical Aptitude Test is a multiple-choice mechanical aptitude test presented on video. You will see a detailed introduction to an animated brick making factory and then be asked questions about the factory. Most of the questions are about basic mechanical objects such as valves and principles such as water pressure. You will also be asked to answer trouble shooting type questions and observe system operations for problems. All of the questions can be answered based on common sense and observation of how everyday objects work. FireTEAM Animated Mechanical Aptitude Test is also timed. You will see the introduction and each question only once. Again, after each question is presented, you will have a brief period to mark the answer you think is best before the next question is presented.

FireTEAM Reading Test 25-27 Questions, 15 Minutes

This test is designed specifically for firefighters, a job requiring on-going study of difficult and technical materials. This test is based on training material and you will be required to choose a word that best fits in the blank. You are given 15 minutes to complete this test.

www.ergometrics.org

The FireTEAM Practice Test is a service provided by Ergometrics to potential applicants taking FireTEAM Testing. The Practice Test is a charge of \$22.95 directly to the applicant for a two use license. In addition, Ergometrics can provide a Video Orientation Loop to your agency for use in your recruitment sessions or in cases of hardship, we can provide a voucher to be used at your location for applicants with difficulties in purchasing the practice test on their own. There are many ways to make the process fair and available to all applicants. We will work with you on your particular circumstances. The included document “Background Orientation for FireTEAM Testing” may be reproduced and given out to applicants at your discretion. The Practice Test is available on the internet to anyone who finds it, even if your agency decides not to give out the background information. It is our intent to make the testing process fair and beneficial to all applicants. While the Practice Test is not necessary in order to do well, it is a helpful tool in reducing test anxiety and giving the applicants an idea of the type of test they will be taking. The Video Orientation Loop can provide this same benefit.

_____ I acknowledge I have received the information regarding the FireTEAM Practice Test.

_____ We give Ergometrics’ permission to post our agency and test date on the Practice Test website.

_____ We choose not to give out any Practice Test information to our candidates and request that Ergometrics does the same. We understand that some applicants may find this information by searching the internet.
