Staff Report

Origin

A Local Area Services Program Petition was successfully circulated and certified on April 6, 2005 for East Side of Seacote Road from Williams Road to 10410 Seacote Road as shown on the attached sketch (Attachment 1).

The *Community Charter* requires that Council adopt a report outlining the expected life of the local area services program and cost-sharing for it prior to adopting the Local Area Services Program Construction Bylaw for the work. This report satisfies those requirements of the *Community Charter*.

Analysis

In support of the Local Area Services Program Construction Bylaw and as required under Section 211 and 212 of the *Community Charter*, this report confirms that:

1. The estimated cost of the work is \$72,000.00;
2. The estimated share or proportion of the total cost which will be specially charged against the parcels benefiting from or abutting on the work is \$48,000.00 and the estimated share to be borne by the City is \$24,000.00. A detailed listing of the cost per property is attached in Bylaw No. 7949;
3. The charge per taxable front metre against the various parcels is estimated to be \$437.04;
4. The number of instalments by which the special charges shall be made payable are 15.

Financial Impact

In the 2004 budget an estimated amount of \$687,363.00 is remaining for the City's share of the Local Area Services Program Projects. The amount of \$24,000.00 would be funded from that source. The estimated balance left in this account after funding this project will be \$663,363.00.

Conclusion

We recommend that this project proceed because financing is in place and the benefiting residents have approved the work by petition in accordance with the *Community Charter*.
