## Let's Talk Energy and Emissions

**We want your feedback!**

The City is seeking feedback on draft actions in Richmond's revised Community Energy and Emissions Plan with a goal to reduce greenhouse gas emissions 50% by 2030, and achieve net zero emissions by 2050. We'd like to hear your perspectives on the draft plan from before making final changes and providing the results to City Council this fall. Learn more about the plan and give us your feedback.

**TAKE THE SURVEY**

Let's talk about energy and emissions

## Crowdsourced by Bee Ambassadors

**Richmond Nectar Trail map coming soon**

Pollinators like bees need to touch down at least every ten metres. In the spring we called on residents and businesses to register their pollen rich gardens and post photos (#RmdNectarTrail) to create a nectar trail across Richmond, it worked!

Continue posting until September 30, 2021 and watch for the Richmond Nectar Trail Map which will be published in the fall.

**REGISTER**

## Garden City Lands

**Clean up and land use planning**

The City of Richmond has been awarded a \$175,000 grant from the Federation of Canadian Municipalities' Green Municipal Fund to support its ongoing soil remediation studies on the Garden City Lands.

The purpose of the study is to fully identify, and locate contaminants on the site from past uses, clean it up and plan for its future land use.

## Win Prizes For Your Ideas

**Help create the Rethink Waste Ideas Hub**

We're looking for great ideas about how we can reduce waste and support a circular economy, where the materials we use stay in circulation to be used, reused or repaired, and recycled multiple times

into new products.

With your ideas, we will create a Rethink Waste Ideas Hub as a resource for our community. Join the Rethink Waste Think Tank to share your ideas on how to reduce waste at [LetsTalkRichmond.ca](https://LetsTalkRichmond.ca) and be entered to win prizes.

## Want to track your home's energy use from your phone?

### There's an app for that!

Track your electricity use to save energy and money with the HydroHome mobile app.

HydroHome's tracking tools and alerts make it easy to stay on top of your electricity use. Knowing how and when you're using electricity, as well as the associated costs, can help you take action to reduce your usage and save.

Want to learn more about how to use the HydroHome energy management app?

## Art Reflecting Nature and Culture

### "From Water to Earth"

"From Water to Earth" by Bagua Artist Association is comprised of forty-one medallions inspired by traditional Chinese ornamental patterns depicts the area's natural bog and slough habitat, local flora and fauna including dragonflies, turtles, labrador tea and bog laurel. The artwork animates a safe, multiuse corridor complemented by new tree plantings, native plant species and a natural stormwater management system. Learn more about the Richmond Public Art Program.
