2.0 Introduction

2.1. The City of Richmond (the “City”) is requesting responses to this Request for Expressions of Interest (“RFEOI”) from interested Respondents to provide child care operations for a City-owned child care facility to be located in Hamilton at 23591 Westminster Highway (Attachment One).

3.0 Background

3.1. Policy Context:

- a) Richmond's Official Community Plan (“OCP”) aims to “promote the establishment and maintenance of a comprehensive child care system to provide accessible and affordable quality programs” through a number of actions, including negotiating with developers for the provision of City-owned child care space.
- b) The City’s Child Care Development Policy acknowledges that quality and affordable child care is an essential service in the community for residents, employers and employees. It commits the City to being an active partner with senior governments, parents, private and non-profit sectors and the

community, to develop and maintain a comprehensive child care system in Richmond.

- c) In addition, the City has demonstrated leadership in the support of child care by establishing a Child Care Development Advisory Committee, the Child Care Development Statutory Reserve Fund, City-owned Child Care Facilities, Child Care Grants and conducting Child Care Needs Assessments.

3.2. Facility Development:

- a) As part of a rezoning agreement with TransLink to develop a Bus Operations and Maintenance Facility at Westminster Highway and Boundary Road, the City negotiated the transfer of community amenity lands and funds for the site preparation and construction of a 3,400 Sq. Ft. City-owned child care facility, outdoor play area, pick-up/drop off area and parking. The child care site will be separated from the TransLink site by a 30 metre wide natural treed buffer strip including a pedestrian trail between Westminster Highway and the North Arm of the Fraser River (Attachment Two).
- b) The City-owned child care facility will be leased to a non-profit child care provider for a nominal rate (e.g., \$1.00 per annum) for ten (10) years plus a mutually agreeable renewable period. The Selected Respondent will be responsible for any and all other costs of operation including utilities, energy, power, maintenance and repair. Specific responsibilities include, but are not limited to:
 - i. Interior: painting, flooring maintenance and replacement, cleaning & janitorial, hydro & gas, telephone installation & billing, security system installation and monitoring; Exterior: signage, fence maintenance and repair, playground, garden & landscaping maintenance within fenced playground area; Services: water, sewer, garbage removal
 - ii. The selected Respondent should carry comprehensive general liability insurance (with a limit of not less than \$5,000,000).
 - iii. The Operator must apply annually for a permissible property tax exemption.
 - iv. The City will generally be responsible for maintenance and repair of the structural components of the building, unless required as a result of Operator or occupant action.
 - v. Building and site plans for the centre have yet to be developed. The selected respondent will work with City staff, the Project Architect and

Child Care Licensing to develop optimal plans for the age groups and programming proposed for the facility.

- vi. As the site will require an extended pre-loading period, construction of the centre will not begin until 2012/13. It is anticipated that the centre will be ready for operation by the fall of 2013.

4.0 Objectives

- 4.1. The City is seeking to lease the future City-owned child care facility at 23591 Westminster Highway to a non-profit child care provider who will provide quality, affordable, accessible care that will include, but need not be limited to, spaces for infant/toddlers and/or school-age children, both identified as the highest need age groups in the 2009 – 2016 Richmond Child Care Needs Assessment, Richmond-wide. In Hamilton, demand for group 3 to 5 and school-age care is predicted to be high (see Attachment Three).
- 4.2. While it is estimated that a facility this size would accommodate 33 children (8 infant/toddlers and 25 group 3 – 5 yrs.), or another configuration in multi-age groupings, licensed spaces will be determined by the Operator in consultation with Child Care Licensing. As indicated, priority will be given to submissions providing infant/toddler and/or school age care.

5.0 Scope

- 5.1. The scope of this RFEIOI includes selection of a non-profit child care society to operate the City-owned child care facility at 23591 Westminster Highway. The facility will be leased to the Operator at a nominal rate (e.g., \$1.00 per annum) for a ten (10) year period, subject to a mutually-agreeable renewal period.
- 5.2. The City will provide major furnishings, fixtures & equipment (“FFE”), such as cubbies, major appliances and light fixtures, etc. with any program-specific FFE costs, (e.g., loose furnishings and toys, etc.) to be borne by the selected Respondent.

6.0 Scope of Services

- 6.1. The selected Respondent will:
 - a) provide a high quality, affordable, accessible child care program;
 - b) provide input, during the planning and design stage, to the City and its consultants regarding the design of the child care centre;
 - c) be responsible for all financial aspects of operating the child care facility, including maintenance responsibilities;
 - d) apply for a license and comply with Community Care Facilities Licensing Regulations;

- e) be responsible for the management and administration of the child care program;
- f) provide age appropriate equipment, furnishings and supplies;

Attachment Three (3) - Excerpt from the 2009 – 2016 Richmond Child Care Needs Assessment and Strategy:

Hamilton

Overview

While the number of children under five is expected to remain relatively stable in the Hamilton area, this area is expected to experience the fastest rate of growth in the school age population in Richmond. Because of its relative isolation, any child care shortages in this area are acutely felt by working parents. Hamilton is relatively well served with preschool spaces, but likely could benefit from additional group care for children from birth to age 12, with a focus on school age care spaces.

Table 1. Projected Population Increase in the Hamilton Neighbourhood			
Age of Children	2009	2016	Increase (2009-2016)

Socio-Economic Factors

Hamilton has a high proportion of children under the age of five relative to other Richmond neighbourhoods, and is also relatively isolated from many of the community services provided in Richmond for children and families. Along with Steveston, Hamilton is one of two neighbourhoods in Richmond that are rated as “advantaged” on the HELP Socio-Economic index. Hamilton has highest levels of employment in comparison to other neighbourhoods in Richmond and in BC. Families with children are considered to be advantaged in terms of household wealth, and this is the only Richmond neighbourhood that rated as “average” on the number of families where the woman is the sole income earner relative to other BC communities. Hamilton has a low proportion of lone parent families, and is one of 3 neighbourhoods that has the lowest

dependence on government transfers, along with Steveston and Thompson. Interestingly, while educational attainment is considered to be high, it is not as high as most other Richmond neighbourhoods. Like other areas in Richmond, Hamilton has highest diversity relative to other BC communities. Hamilton was rated as average in terms of residential stability.

Given its positive socio-economic status, Hamilton did not rate as well as could have been expected on the HELP vulnerability index. It rated around the middle of the pack, being the 6th least vulnerable out of eleven neighbourhoods, with 29.0% of kindergarten children rated as vulnerable on one or more domains.. They rated least well on social competence, with 16.1% of kindergarten children considered vulnerable on this scale in 2006/2007. They rated highest in terms of communication skills and general knowledge in relationship to other Richmond neighbourhoods, with 12.9% of kindergarten children rated vulnerable on this scale.

Findings

This area could benefit from additional school age care spaces as well as group care for 3 to 5 year olds. This community would also benefit from combining these facilities with programs that support both working and non-working parents and their families.
