**Attention: To All Proponents**

**Re: Request for Proposal 4608P Bucket Spectator Seating for the Richmond Olympic Oval  
– Addendum No. 2**

This Addendum includes items of clarification; forms part of the Contract Documents and shall be read, interpreted and coordinated with all other parts. Please review and consider the following information in the preparation of your proposal

**Q.1.** Do you require an all-aluminum platform for this system?

**A.1.** An all aluminum platform is preferred and should form the basis of the quoted prices. However, Proponents may submit composite systems as price options in their Proposals, in addition to the requirements of the RFP.

**Q.2.** Will (a steel) support structure be an option for you? Or will you require a custom aluminum support structure?

**A.2.** An aluminum support system is required. The City understands that the ultimate system will be custom-made.

Proponents must sign and include this Addendum with their submission.
