Subject: Re: Standing committees

Hi David,

I'd like to make the following motion at the next GP Committee meeting:

To direct staff to identify feasible options for publishing on the City of Richmond website the audio recordings from all Council and Standing Committee meetings that are not video recorded.

The purpose is to provide a greater level of accessibility and transparency of City Council decisions, as is provided by video recordings currently provided for some meetings. It will also provide interested public with a more detailed understanding of the meetings, and capture the nuances that are not found in the minutes.

Thank you,

Kelly

Kelly Greene
Richmond City Councillor
