BYLAW NO. 9516

WHEREAS:

Part 2, Division 1, Section 8 of the Community Charter confers upon the City authority to, by bylaw, regulate, prohibit, and impose requirements in relation to the protection and enhancement of the well-being of its community in relation to refuse, garbage or other material that is noxious, offensive or unwholesome, and in relation to the use of waste disposal and recycling services;

Part 7, Division 2, Section 194 of the Community Charter confers upon the City authority to, by bylaw, impose a fee in respect of the exercise of authority to regulate, prohibit or impose requirements;

The Greater Vancouver Sewerage and Drainage District, Greater Vancouver Regional District, and their respective member municipalities, including the City, have set a target in the Integrated Solid Waste and Resource Management Plan of 70% diversion of municipal solid waste from disposal by 2015;

It is deemed desirable to regulate, prohibit, and impose requirements with respect to the use of waste disposal and recycling services to ensure that waste and recyclable materials resulting from demolition work are managed in a manner that enhances and protects the well-being of the community and the target diversion rate is achieved,

The Council of the City of Richmond enacts as follows:

1.3 Nothing in this Bylaw precludes or relieves a person from complying with any provision of the Building Bylaw, other bylaws of the City, or any federal, provincial, or local government laws or regulations applicable to work.
1.4 Neither the review nor acceptance of a waste disposal and recycling services plan, or compliance report constitutes a representation, warranty, assurance or statement by the City that the owner has complied with the Building Bylaw, this Bylaw, or any other applicable enactment, law, or regulation respecting safety.

PART TWO: MANDATORY RECYCLING

2.1 At the time of submitting an application for a building permit for work, a properly completed waste disposal and recycling services plan regarding the management of waste and recyclable material must be signed by the owner or agent and submitted to the building inspector.

2.3 If recyclable material is removed from a site, the recyclable material must be removed:

(a) to a recycling facility; or

(b) in accordance with an approved waste disposal and recycling services plan, including reuse by the owner or agent, removal to a recycling facility, or as otherwise set out therein.

2.4 If waste, other than recyclable material, is removed from a site, the waste must be removed to a disposal facility.

(a) payment receipts, donation receipts, weigh bills, inspection reports, clearance letters, sampling reports, waste transport manifests, and recycling verification letters from mixed load recycling facilities detailing the percentage of waste recycled, reused or disposed;

(b) photographs, if applicable, recording the removal of recyclable material from the site as specified in an approved waste disposal and recycling services plan; and

(c) any other records that the building inspector specifies, at the time of application for a building permit for work, must be kept.

(a) a properly completed compliance report; and
(b) originals of the records required to be kept under section 3.1 above.

PART FOUR: FEES

4.1 Every person who performs, or causes or allows the performance of work, must pay the non-refundable application fee and the waste disposal and recycling services fee at the time of submitting the waste disposal and recycling services plan.

4.2 The holder of the building permit for the work is eligible for a fee refund, as calculated in accordance with Schedule “B” attached to this Bylaw, if the following have also been completed to the satisfaction of the building inspector:

(a) a waste disposal and recycling services plan;
(b) within ninety (90) days after project completion,
   (i) a compliance report;
   (ii) submission of the originals of the records required to be kept under section 3.1 above; and
   (iii) an application to the building inspector for the fee refund;
(e) within seven (7) days of being requested to do so, submission to the building inspector of any of the records required to be kept under this Bylaw, in addition to those submitted under 4.2(b)(ii) above, in order to evaluate eligibility for the fee refund.

PART FIVE: OFFENCES, PENALTIES AND ENFORCEMENT

5.1 (a) A violation of any of the provisions identified in this bylaw shall result in liability for penalties and late payment amounts established in Schedule A of the Notice of Bylaw Violation Dispute Adjudication Bylaw No. 8122, as amended and replaced from time to time; and

5.3 Any person who contravenes or violates any provision of this Bylaw, or any building permit for work issued in connection with this Bylaw, or who suffers or allows any act or
thing to be done in contravention or violation of this Bylaw, or any building permit for work issued in connection with this Bylaw, or who fails or neglects to do anything required to be done under this Bylaw, or any building permit for work issued in connection with this Bylaw, commits an offence and upon conviction shall be liable to a fine of not more than Ten Thousand Dollars ($10,000.00), in addition to the costs of the prosecution, and where the offence is a continuing one, each day that the offence is continued shall constitute a separate offence.

Planning how you will manage the recyclable materials generated at your site will help you meet the recycling requirements. Please complete the following checklist of the types of recyclable materials that your project is expected to generate and submit as part of Form 1. Use this checklist for discussion with waste collection, recycling and disposal companies. A list of recycling facilities is available from the Permits Department or [http://www.metrovancouver.org/services/permits/Permits%20Regulations/ActiveSolidWasteLicenceList.pdf](http://www.metrovancouver.org/services/permits/Permits%20Regulations/ActiveSolidWasteLicenceList.pdf)

You must keep track of all materials generated over the duration of the project by keeping receipts from all recycling and disposal facilities or signed forms from all salvagers for material re-use (Form 3 – compliance report).
