Subject: Congestion on Turnill Street and Application for a Development Permit DP 07-395965

Dear Mr. Jackson,

I am writing you to express my concern about the congestion on Turnill Street and the surrounding area.

I drive through Turnill Street and Sills Street every day and have seen the area become increasingly congested. Vehicles are parked on both sides of the street and many times I have to stop my car and let the approaching vehicle pass before I can continue to drive.

I received a notice of Application for a Development Permit **DP 07-395965** months ago and noted the proposed townhouse development would have vehicle access on Turnill Street. I made an online submission before the hearing in which I suggested the gate of the townhouse complex to be relocated to General Currie Road. But today when I checked the related reports on City's website, I didn't see this traffic congestion issue included in the discussion and I don't know how the issue will be dealt with. Why is the online submission not included?

I know there will be another meeting at 3:30PM on May 14, 2008 regarding this application, but I am unable to attend it. Pls forward my concern to your staff for consideration and let me know if this issue has been addressed.

In the meantime I suggest the city permit parking on one side of the street only in the Turnill Street area. Without such a change to the parking rule, it's just a matter of time before two vehicles collide head-on.

Regards,
Ying Wang
