Subject: Anthem- Steveston Highway Townhomes

Dear Mayor and Council,

I'm writing in support of Anthem's proposed residential development at 5191-5351 Steveston Highway.

Townhomes are under-supplied in Richmond, I believe they are an important housing type for the people who can't afford single-family home. From this, the project will benefit our community.

I also see the following benefits it has:

- Going from ten driveways to one entrance controlled by a traffic light will improve the safety of Steveston Highway.
- The widened sidewalk / boulevard will improve the pedestrian experience on Steveston.
- Provision of public art.
- Provision of green space.

Thank you for your consideration,

Pamela
