To whom it may concern:

I have reviewed the Development Resubmission, dated December 9, 2011 prepared for Centro Terrawest Development Ltd.

As a resident of Terra Nova, I am in support of this mixed-use development, which will provide one-level living space in an area dominated by multi-level homes and townhouses. The availability of this type of accommodation will allow existing owners downsize and age in place within the community.

Yours truly,
