

YOU'RE INVITED TO

The City of Richmond's Virtual Builders' Breakfast

2022–2025 Energy Step Code
Requirements for Part 9
Buildings | Workshop #2

**Wed, September 8, 2021
8:00am – 9:30am**

This event is eligible for
BC Housing CPD credits.

This interactive workshop will provide you with information on:

- City of Richmond proposed Energy Step Code requirements and GHG emission limits for 2022
- City of Richmond incentives for high-performance homes
- CleanBC incentives for electric heat pumps, all-electric homes, and building to higher Step Code levels
- Estimated dollar value of combined CleanBC and City incentives by Step Code level

Live polling will be conducted on the following topics:

- Proposed Energy Step Code options you are most likely to choose on your next project
- How the City can best help builders to successfully achieve higher energy performance and lower GHG emissions
- Your preferences on proposed subsidized training opportunities for builders, designers and sub-trades, starting fall 2021

**Sign-up
today!**
